Lab 01

HMS (Hospitals Management System):

➢ Create new module called "hms"

➢ Create a model for patient called "hms.patient"

➢ Create needed menus to view/create patients' data

➢ The model contains the following data:

➢ First name
➢ Last name
➢ Birth date
➢ History (html)
➢ CR Ratio (float)

➢ Blood type (drop down)
➢ PCR (checkbox)
➢ Image (upload image)
➢ Address (text)
➢ Age
